ECSTAR

GENUINE OIL & CHEMICAL

2021

For MCS-source Distributors

For Suzuki Distributors / Suzuki Dealers

This booklet will help you to identify suitable genuine oil and chemical products for maintaining and servicing Suzuki vehicles. Genuine oil and chemical products meet the technical specifications (quality, performance, reliability, etc.) as specified in the Suzuki owner’s manual and service manual. We recommend to choose them to provide quality and reliable service to your customers.

Notice: For usage of items in detail, please refer to the applicable owner’s manual and service manual.

What is ECSTAR?

In the 1980's , Suzuki started the development of lubricants in pursuit of ultimate performance. The lubricant is named "ECSTAR" as it is our guiding "Star" towards an "Ecstatic" performance. As the expectation towards our products evolves, the same attention to performance is required for durability and environmental protection. With the high technology cultivated through its long history and dedicated engineering, Suzuki has precisely re-formulated "ECSTAR" to satisfy and exceed these requirements.

In 2015, ECSTAR has been started as the global brand name of Suzuki Genuine Oil & Chemical.

By enchancing and drawing out the best performance, "ECSTAR" will give you a Suzuki experience that others could not.

AUTOMOBILE

THE ULTIMATE FORMULATION

ECSTAR Engine Oil is exclusively developed and designed with special base oil and additives formulation to meet requirements of outstanding performance to SUZUKI engines. It has passed rigorous tests which proves the contribution to superior performance. We recommend you to choose ECSTAR engine oil for your SUZUKI.

Advantage of ECSTAR engine oil

-  **Fuel Savings**
The Genuine formulation creates high performance and meets the severest fuel economy standards for Suzuki engines.
-  **Outstanding Engine Protection**
The innovative lubrication technology contributes to achieving thermal stability, which delivers the ultimate engine protection even when starting engine in cold climates.
-  **Clean Engine for Longer Life**
Clean performance contributes to extending the engine life by preventing sludge and deposits.

Grade Line-up

ECSTAR oil reveals highest performance. Our product line-up consists of 2 grades to all Suzuki users: F9000 is designed for those who desire high performance and F7000 for those who wish to keep balance on performance and costs.

Replacement Guideline

NEW

USED

Interval 20,000 km or 1 year (whichever comes first*)

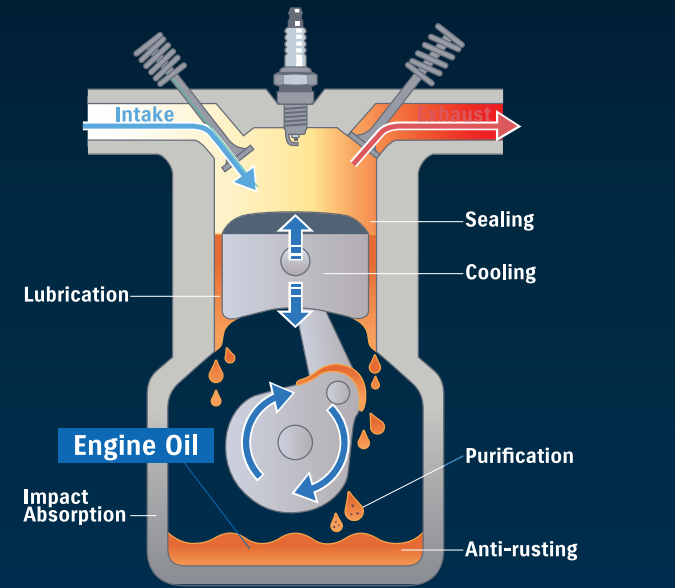

* Engine oil degrades over time even if the vehicle is not driven for a long distance. We recommend to change the oil at the adjacent intervals (whichever comes first). The guideline varies by car model, condition of use and location, etc. Please refer to the owner's manual or ask an authorized Suzuki dealer for more information.

Purpose and function

Many of the components inside the engines repeat rotational and reciprocating motion. Engine oil lubricates these components to ensure optimum performance. The oil cools engine, and also cleans and protects internal structure. Engine oil should be checked once a week or at each time your refill the petrol to replace the oil before it degrades.

The correct choice for your Suzuki

ECSTAR oil has been exclusively designed for Suzuki engine and passed rigorous tests for performance, quality, durability, etc. We recommend that you choose ECSTAR when you need to change engine oil for your Suzuki.

MOTORCYCLE

Motorcycle engines are different from automobile engines in structure. Unlike automobile, the motorcycle engine is integrated with the transmission gear and clutch. In other words, all these parts share the same oil inside the engine to lubricate the components. As motorcycles engine oil is used in such severe condition compared to automobile, the use of engine oil exclusive for motorcycle is highly recommended.

WHAT IS JASO MA?

Standard provided by the Japanese Automotive Standard Organization to certify the grade of motorcycle 4-stroke engine oil. ECSTAR engine oil meets JASO MA specifications for optimal wet clutch performance.

WHAT IS API?

Standard provided by the American Petroleum Institute to certify the engine oil quality and performance. The latest classification among the twelve is SN, which was introduced in 2010.

Replacement Guideline

Interval 1st 1000 km or 2 months from 2nd time 6000 km or 1 year

* Engine oil degrades over time even if the vehicle is not driven for a long distance. We recommend to change the oil at the adjacent intervals (whichever comes first). The guideline varies by model, condition of use and location, etc. Please refer to the owner's manual or ask an authorized Suzuki dealer for more information.

THE ULTIMATE FORMULATION

The secret of ECSTAR's outstanding performance is the optimal blend of oils, which is created through both theoretical and empirical analysis of Suzuki motorcycle engines from the stage of designing.

As ECSTAR is designed to match Suzuki engines perfectly, not only is the viscosity optimal and outstanding, but also other parameters such as wear protection achieve high value.

The correct choice for your Suzuki

Thus, ECSTAR oil has been exclusively designed for Suzuki engine and passed rigorous tests for performance, quality, durability, etc. We recommend to choose ECSTAR when you need to change engine oil for your Suzuki.

OUTBOARD

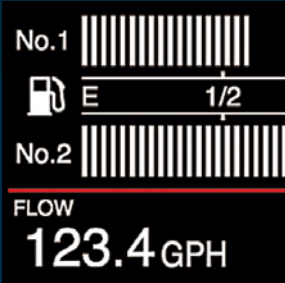

ECSTAR OIL

The ultimate formulation

In the 1980’s, Suzuki started the development of lubricants in pursuit of the ultimate performance. The lubricant is named “Ecstar” as it is our guiding “Star” towards an “Ecstatic” performance. As the expectation towards our products evolves, the same attention to performance is required for durability and environmental protection. With the high technology cultivated through its long history and dedicated engineering, Suzuki has precisely reformulated “ECSTAR” to satisfy and exceed these requirements.

By enhancing and drawing out the best performance, “ECSTAR” will give you a Suzuki experience that others could not.

ADVANTAGE OF ECSTAR

FUEL SAVINGS
The Genuine formulation provide the high performance and help to improve fuel economy.

ENGINE PROTECTION
The innovative lubricating technology achieves the thermal stability, which contribute to the ultimate engine protection even when starting engine in cold climates.

CLEAN ENGINE
Cleaning performance helps to prolong the engine life.

ECSTAR V7000

Suzuki engineers have created a premium oil that has not only exceeded all standards set by the NMMA but more importantly has been designed specifically for Suzuki marine engines. ECSTAR is FC-W certified and uses a high quality low sulfur content based oil that reduces ash buildup for increased durability and the high viscosity index is a major contributor to maximising fuel efficiency.

V7000 SEMI SYNTHETIC

High performance blend of synthetic lubricants and premium mineral oils engineered to protect your Suzuki engine and optimise its performance.

- Less engine water
- Lower oil consumption
- Improved starting
- Reduced fuel consumption

Suzuki Approved Genuine Oil by MOTUL

Suzuki and MOTUL have been in partnership in MotoGP since 1988. Extending this trusted relationship led to the development of new Suzuki Marine Oils. These ranges of oils have excellent oxidation stability and provide outstanding rust protection under severe operating conditions.

These products are supplied directly by MOTUL. Please note that these oils are not available in some countries. Please contact the local distributor of MOTUL.
